WORK EXPERIENCE

React Developer Intern   Dec 2023 – Present

Hunchha Digital | Sunsari,Nepal

- Collaborated with the development team to identify and address UI issues in the Shaasan project (Dispute Resolution Platform for Kathmandu Metropolitan City), resulting in improved user experience and visual consistency.
- Designed and implemented remaining user interface components, adhering to project specifications and client requirements, enhancing the overall aesthetics and usability of the application.
- Implemented API integrations for user management, dashboard, and dataset sections, enabling seamless authentication, authorization, data retrieval, manipulation, and visualization functionalities.

EDUCATION

Bachelor of Information Technology (BIT Hons)   Mar 2021 – Present

Padmashree College (Kathmandu, Nepal)

+2, Science (Intermediate)   Mar 2018 – Mar 2020

Pentagon International College (Kathmandu, Nepal)

PROJECTS

Portfolio Website   View Website **|** View in GitHub

- Developed an engaging and responsive portfolio website using React JS, enabling seamless navigation and showcasing various sections such as projects, about me, contact, etc.
- Ensured the website's responsiveness across different devices (desktops, tablets, mobiles) to offer a consistent user experience.
- Integrated a contact form for visitors to reach out or inquire, facilitating interaction and networking opportunities.

Grocery Store   View Website **|** View in GitHub

- Built a comprehensive e-commerce web application using a full-stack approach, integrating HTML, CSS, JavaScript, PHP, and MySQL to create a seamless user experience.
- Engineered and implemented back-end functionalities using PHP and MySQL, ensuring robust data management and secure transaction processing.

- Crafted an intuitive and responsive user interface with HTML, CSS, and JavaScript, enhancing user engagement and accessibility on multiple devices.

Task Manager   View Website **|** View in GitHub

- Developed a user-friendly Task Manager application using React.js and React-Router, enhancing task management efficiency through a dynamic and responsive interface.
- Implemented state management using Redux to ensure seamless tracking and updating of tasks, resulting in an intuitive and reliable user experience.
- Integrated JSONPlaceholder API for realistic task data simulation, facilitating effective task operations like addition, completion status updates, and deletion.

TextUtils   View Website **|** View in GitHub

- Developed an innovative React JS application capable of word counting, character tallying, space removal, demonstrating proficiency in complex JavaScript functionalities.
- Focused on creating a user-centric design, ensuring the application is intuitive and easy to navigate, thereby improving the overall user experience.

Logistics Website   View Website **|** View in GitHub

- Developed a user-friendly logistics web application using Vite and React JS, leveraging modern front-end development techniques.
- Implemented a responsive and intuitive user interface to enhance user experience, utilizing Tailwind CSS for streamlined and consistent styling across the application.

Weather App   View Website **|** View in GitHub

- Built a weather app that displays weather details through a responsive and user-friendly interface crafted using React JS..
- Integrated the OpenWeatherAPI to fetch weather data in real-time for specific locations based on user input or predefined options.
